Communications	Session summary	Session summary	Session summary & Draft Report	Report
Metrics	Plus/Delta debrief	Plus/Delta debrief	Plus/Delta debrief	Survey of Industry Workgroups

Is the Healthcare Industry alone?

- Short Answer – NO
- This workforce development conversation is taking place in every industry across the nation
- Goal – higher efficiency and effectiveness, while taking on a more systematic approach in a rapidly changing & growing global economy

* Success in the New Economy link – written for students by a community college

Framing the PIPELINE Project

Bethany Krom

Mayo College of Medicine

Framing the PIPELINE Project

Adam Suomala

Minnesota P.I.P.E.L.I.N.E. Project

Private Investment, Public Education, Labor & Industry Experience

Project Goal:

To develop

- industry approved competency standards
- for three occupations
- in four critical growth industries

Group Activity: Occupations

What occupations are needed?

What are the Skills, Knowledge and Abilities needed?

Competency Standards Framework

Next Steps & Closing

Healthcare Industry Council Meeting II: **Tentative October 1, Rochester**

Goals:

1. **Learning**: Competency Standards currently used in Minnesota, U.S. and Internationally

2. **Decision Making**: the 3 occupations for which this industry council will develop competency standards.
