

## *Areas Where The Code Is In Effect; Ungraded Lumber*

### **Note about using the lists:**

In an effort to clarify Minnesota Statutes, section 16B.62, subdivisions 1a and 1b, (b) and 16B.61 subdivision 3(m), this list has been developed to provide more detailed information about the code status of townships, cities, and counties in Minnesota.

The State Building Code is in effect throughout the following counties: Anoka, Carver, Chisago, Dakota, Freeborn, Goodhue, Hennepin, Isanti, Kandiyohi, Meeker, Mille Lacs, Olmsted, Ramsey, Rice, Scott, Sherburne, Steele, Wabasha, Washington and Wright. This means that even though a particular city or township in a particular county is listed as a “No” on the list (because the city or township does not have an ordinance adopting the code), the code is in effect throughout the entire county, therefore the city or township is included through the county’s adoption of the code. Also, in some of the counties, Ramsey County, for instance, the code is administered by the all the townships and cities in that county, therefore there is no need for a county level adoption. Your municipality may have subsequently adopted the code after the dates identified on this list as required by the statute, so you are urged to contact your municipality to confirm whether your township, city or county has adopted the code in your area. The statutes that relate to this information are as follows:

### **Minnesota Statutes, section 16B.62, subdivisions 1a and 1b:**

Subd. 1a. **Application.** The State Building Code is the standard that applies statewide for the construction, reconstruction, alteration, and repair of buildings and other structures of the type governed by the code. The State Building Code supersedes the building code of any municipality. The State Building Code does not apply to agricultural buildings except with respect to state inspections required or rulemaking authorized by sections 103F.141; 216C.19, subdivision 9; and 326.244.

Subd. 1b. **Municipal enforcement.** (a) If, as of January 1, 2008, a municipality has in effect an ordinance adopting the State Building Code, that municipality must continue to administer and enforce the State Building Code within its jurisdiction. The municipality is prohibited from repealing its ordinance adopting the State Building Code. This paragraph does not apply to municipalities with a population of less than 2,500 according to the last federal census that are located outside of a metropolitan county, as defined in section 473.121, subdivision 4.

(b) If a municipality is not required by paragraph (a) to administer and enforce the State Building Code, the municipality may choose to administer and enforce the State Building Code within its jurisdiction by adopting the code by ordinance.

### **Minnesota Statutes, section 16B.61, subdivision 3 (m):**

(m) **Use of ungraded lumber.** The code must allow the use of ungraded lumber in geographic areas of the state where the code did not generally apply as of April 1, 2008, to the same extent that ungraded lumber could be used in that area before April 1, 2008.
