

CCLD REVIEW

CONSTRUCTION CODES AND LICENSING DIVISION

SUMMER 2011

Licenses impacted by new system

On Oct. 3, 2011, a uniform license numbering system will take effect for all licenses, registrations and certifications administered by the Construction Codes and Licensing Division.

Each license number will include two alphabet characters (i.e., XX) to identify the license type and a unique six-digit number (i.e., 123456) associated with the licensee. The following table shows the letter code for each license type.

For help with licensing questions, send an e-mail to DLI.License@state.mn.us

Boiler Engineer and Boat Master

Code	Description
CA	Chief A engineer
CB	Chief B engineer
CC	Chief C engineer
1A	1 st class A engineer
1B	1 st class B engineer
1C	1 st class C engineer
1P	1 st class provisional engineer
2A	2 nd class A engineer
2B	2 nd class B engineer
2C	2 nd class C engineer
SP	Special class engineer
HB	Historical boiler engineer
MA	Boat master
CO	Boiler inspector competency

Building Official Certifications

Code	Description
BO	Building official
LB	Building official – limited
AS	Accessibility specialist

Electrical

Code	Description
EA	Class A electrical contractor
AM	Class A master electrician
AJ	Class A journeyman electrician
EB	Class B electrical contractor
BM	Class B master electrician
BJ	Class B journeyman electrician
ER	Reg employer electrical
MN	Maintenance electrician
CE	Elevator contractor
EM	Master elevator constructor
EL	Journeyman elevator constructor
TS	Technology system contractor
PL	Power limited technician
IA	Installer A
IB	Installer B
LN	Lineman
RE	Reg unlicensed electrician
RC	Reg unlicensed elevator constructor
RT	Reg unlicensed power limited technician

High Pressure Piping

Code	Description
HC	HPP business
HM	HPP contracting pipefitter
HJ	HPP journeyman pipefitter
RF	Reg unlicensed HPP pipefitter

Plumbing

Code	Description
PB	Plumbing bond
PC	Plumbing contractor
PM	Master plumber
