

# Step-by-step instructions for using PC Pricer Tool for payment of workers' compensation inpatient hospital services under Minnesota Statutes § 176.1362

For hospital discharge dates from Oct. 1, 2018, through Sept. 30, 2019

Download the PC Pricer tool from the following .zip file: [PC Pricer Tool – 2018.0](#). The file contains two documents:

- the FujitsuNetCOBOL application; and
- the PC Pricer tool effective April 10, 2018, labeled as INPC18C.

## System requirements

The PC Pricer can only be installed on the Microsoft Windows operating system.

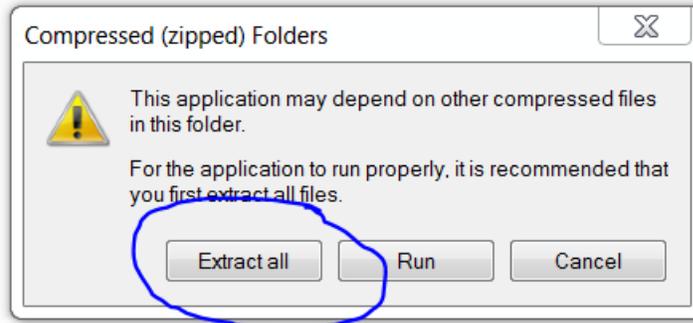

## Installation steps

To install and run the PC Pricer from the link above, follow these steps.

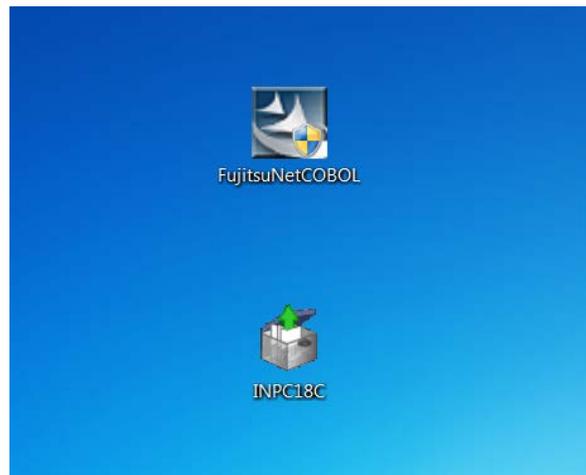

1. Click on the link to the .zip file linked above and on [www.dli.mn.gov/business/workers-compensation/work-comp-pc-pricer-tool-inpatient-hospital-bills](http://www.dli.mn.gov/business/workers-compensation/work-comp-pc-pricer-tool-inpatient-hospital-bills).
2. Open the downloaded file.
3. The .zip file, with the two documents listed above, will open on your computer. Click on the FujitsuNetCOBOL application. A one-time installation of Fujitsu NetCOBOL run-time files is required – you should not have to repeat this step if you have already installed these run files previously.

Name	Type	Compressed size
 FujitsuNetCOBOL	Application	18,513 KB
 INPC18C	Application	3,121 KB

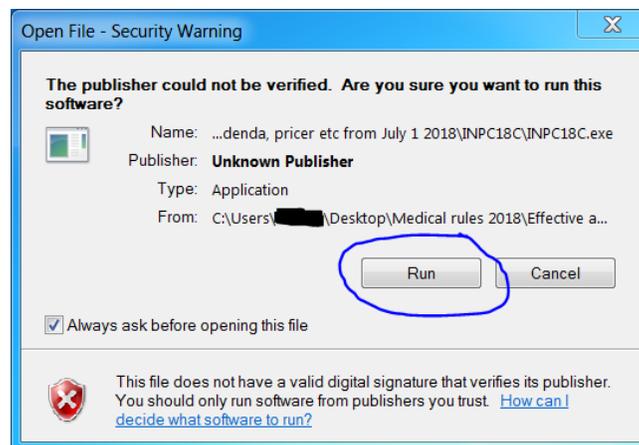

4. A new window will pop up. Click “Extract All.” Select your desktop or another preferred destination for the files.

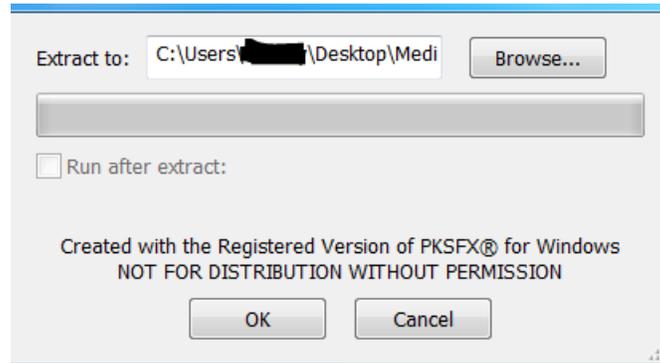

5. Two new extracted applications will appear on your desktop or in the preferred destination selected in step 4. If you have not done so previously, you may need to click on the FujitsuNetCOBOL application and complete the installation.

6. Double click on the INPC18C application file. A window will appear. Click “Run.”

- Click "OK" on the window that appears. This will download the PC Pricer file.

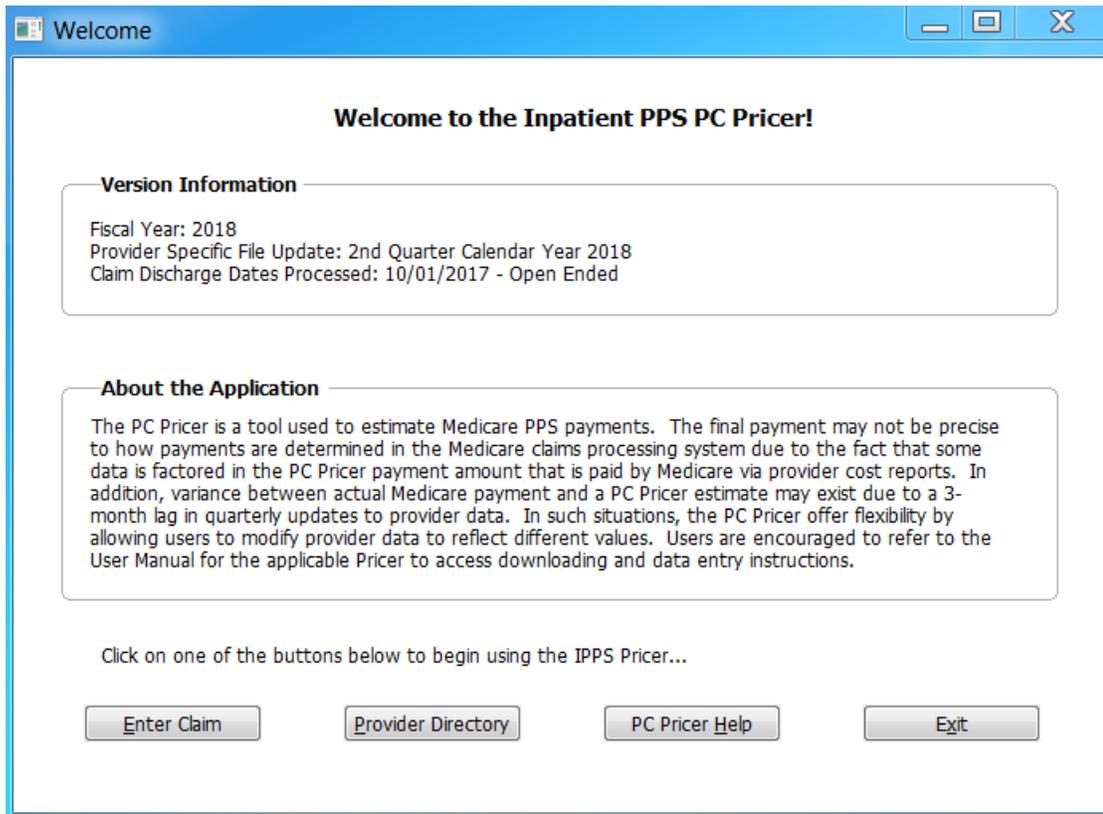

- You will be prompted to create a folder. Click "Yes." When the extraction is complete, click "OK."
- Open the INPC18C folder from the C drive on your computer.
