Google Chrome – Site "Spinning"

The Issue:

Task screen looks like this:

asks (PF) Projects

Projects screen looks like this:

eplans							
	Home Q	All Tasks Create Project All Reports	Profile Logout (?)				
Tasks (PF) Projects							
Recent Projects O Refresh Save Settings		Archived Projects All Projects Recent Projects					
	Processing						

The Fix:

The fix is to clear the browser's images and files cache:

1) Open the menu Google Chrome menu via the "kabob" at the top right. Then click "Settings" from the drop-down menu.

2) Open the "Clear browser data" item under the "Privacy and security" section.

3) Clear the "Browser history" and "Cookies and other site data" checkboxes. Make sure the "Cached images and files" box is checked. Then click the "Clear data" button.

ProjectDox should now work as expected with Chrome.
