

IMC/IFGC TAG

Meeting Notes

Date: Friday, March 2, 2018

Meeting Location: DLI Washington Room

Call to order:

Chris Meier

Attendance:

TAG Members present:

TAG Members absent:

Guests attending:

Worksheet and Code Change Proposal Review:

Bill Stuart from OSHA presented information about the criteria for fall protection for sloped roofs greater than 4:12. 29 CFR part 1910, subpart D, Walking-Working Surfaces describes OSHA fall protection criteria. The TAG consensus is to accept the 2018 IFGC section 306.6 and 2018 IMC section 304.11 as written but add a reference to the OSHA standard.

The TAG consensus is to amend the following code sections:

2018 IFGC Section 202 to add a definition of ready access;

2018 IFGC Section 409.1.4 Building shutoff valve;

2018 IFGC Section 303.3.1 Decorative appliances;

2018 IFGC Section 304.6.2 One permanent opening method;

2018 IFGC Section 307.6 Condensate pumps; and

2018 IMC Section 303.8 Elevator shafts.

Reviewed 2018 IMC sections 307.2.5 to 403.1.

2018 IMC Section 307.3 and 2018 IFGC Section 307.6.1

The TAG consensus is to delete IMC section 307.7 and IFGC section 307.6.1. Joe Strohmeyer will submit the proposal.

All references to “TAG consensus” indicates what the TAG will propose to the CCAC for their consideration. The TAG
