Campus is being built through a partnership between DLI, MNIT, & CapTech

DLI is partnering with MNIT and CapTech to build Campus, a state-of-the-art workers’ compensation system that will provide a user-friendly, data-driven, online system that improves support to injured workers and provides greater insight into claims and disputes for the stakeholders.

Self-service online access to claims, related documents, events and outcomes.

Securely send e-documents to the parties to the claim.

Securely send and receive data between DLI, OAH and WCCA.

Minimize claim errors through data accuracy verification.

Campus will put the workers’ compensation claim information you need at your fingertips.
Campus is being built with user experience (UX) at the forefront

Plan Users’ Experience
UX research used to create user personas & system map of core experience.

Test & Validate Designs
UX research used to create wireframes & click-through prototype of pages/functionality, which was tested with users to validate usability and accessibility.

Visual Design & Development
UX testing of wireframes & prototype defined the global user interface patterns, creating design continuity for users.

Ongoing Testing of Development
Ongoing user acceptance testing (UAT) & business validation testing (BVT) with DLI staff and external stakeholders validates development and requirements.
