Based on: Health: Allied Health Competency Model Employment and Training Administration, United States Department of Labor, December 2011.

* The PIPELINE Program recommends the Industry-Sector Technical Competencies as formal training opportunities (provided through related instruction) and the Occupation-Specific Competencies as on-the-job training opportunities.
Health Support Specialist – A cross trained employee in all areas of caring for older adults including memory care, culinary care, environmental services, meaningful activities, physiological care and psychosocial care.

Industry-Sector Technical Competencies

- **State Regulation for Adult Health** – Knowledge of the governing state regulations for the safe delivery of Adult Health Care.
- **Environmental Services Dress Code** – Awareness of requirements of appropriate work attire to maintain safe and healthy environments for workers and clients.
- **CPR and First Aid** – Training in First Aid and CPR certification.
- **Patient Transfer and Bed Mobility** – Learn to assess a patient’s mobility status, to identify equipment options for safely mobilizing the patient to beds/chairs/toilet and determine the mobility level of the patient.
- **Food Safety Preparation** – Understand the importance of proper food handling procedures and hygiene practices surrounding meal preparation and serving.
- **Understand MSDS** – Learn how to read and use the information on Material Safety Data Sheets (MSDS).
- **Central Supply Store Room Usage and Access** – Understand proper supply room procedures and use of products found there.
- **Infection Control Procedures** – Understand and practice infection control to ensure a sanitary environment for clients. Knowledge of basic hand washing, gloving, waste disposal and infection containment procedures.

Occupation-Specific Competencies

- **Dementia Care** – Understanding of diseases that cause dementia and how to care and interact with older adults affected by such conditions.
- **Person Centered Care** – Training in the human values necessary to implement person centered care and vital elements for older adults to maintain quality of life.
- **Range of Motion** – Demonstrate knowledge of movement potential of the various joints of the body and how to properly assist older adults with limited range.
- **Splint or Brace Assistance** – Assist older adults with splints and braces for injuries and/or support.
- **Dining Services** – Demonstrate knowledge of preparing food while following food safety guidelines and accommodating special dietary restrictions and needs for older adults.
Housekeeping and Laundry Services – Maintain a clean environment by completing housekeeping, laundring and simple maintenance tasks within the guidelines of facility policies and procedures.

Dressing and Grooming – Show proper techniques and propriety in assisting clients with dressing and grooming.

Bathing and Hygiene Procedures – Use appropriate methods of bathing and hygiene practices for older adults.

Eating and Swallowing Procedures – Monitor eating and swallowing and assist with special accommodations and practices for older adults.

Amputation and Prosthesis Care – Assist with putting a prosthesis on, how to take it off, and how to care for the skin of the stump and the prosthesis.
PIPELINE Project
Competency Model Health Care Services
Occupation: Health Support Specialist

Employer Requirements
