MNRAE RTI, or, OJT program

Grant request for proposal

Grant overview

The Minnesota Department of Labor and Industry's (DLI's) mission is to ensure Minnesota's work and living environments are equitable, healthy, and safe. The department serves employees, employers and the public by regulating buildings and workplaces through education and enforcement.

DLI is committed to fair and competent enforcement of the laws it administers and is committed to serving as a responsive and reliable resource for all Minnesotans, including employers, workers, insurers and licensees. DLI is committed to building a diverse and inclusive workforce to better serve Minnesota's citizens.

Apprenticeship Minnesota at DLI was awarded \$1,356,276.90 from the U.S. Department of Labor's (DOL's) Employment and Training Administration to expand registered apprenticeship in Minnesota. This initiative is wholly funded with U.S. DOL grant funds. The Minnesota Registered Apprenticeship Expansion Grant (MNRAE) funds numerous initiatives including: 1) supporting the development and recruitment of a diverse pipeline of apprentices; 2) supporting the rapid development of new registered apprenticeship programs and the expansion of existing programs; 3) fully integrating apprenticeship into state workforce development education and economic development strategies and programs; and 4) building state capacity to make it easier for industries to start registered apprenticeship programs and for apprentices to access opportunities.

Objective of the MNRAE RTI and OJT training program funding

The purpose of this grant is to expand registered apprenticeship in Minnesota. DLI, through Apprenticeship Minnesota, seeks applications from employers interested in forming a new registered apprenticeship program and from existing registered apprenticeship programs that may be seeking to grow their current training programs. Applications for this funding will be reviewed each week on a continual basis, concluding on August 31, 2022, or when the funds are depleted, whichever comes first. The grant period of performance begins immediately with an anticipated end date of November 30, 2022.

RTI and OJT training funding objectives include:

- providing existing registered apprenticeship sponsors funding support to expand into new apprenticeable occupations or grow current programs, thereby increasing the number of new apprentices;
- providing new sponsors with funding support to assist them in the development of a new registered apprenticeship program;

- providing new apprentices with quality RTI and OJT training programs through the expansion of registered apprenticeship sponsorship; and
- bridging the gap between apprenticeship sponsors and career seekers with the intent of building diversity within registered apprenticeship.

Funding availability

- Total available funds allocated for this program: \$53,000.
- Funds will be awarded through an application process. Existing registered apprenticeship sponsors may apply for funding using the attached MNRAE RTI/OJT training grant applications. All other interested parties may submit the attached letter of interest; an Apprenticeship Minnesota team member will then contact you.
- Each applicant may apply for up to \$1,000 for each new registered apprentice, up to \$25,000.
- Each applicant may apply for either RTI or OJT funding, but not both.
- For purposes of the grant, a new apprentice is one who begins a registered apprenticeship ninety (90) days prior to the effective date of the awarded contract, or anytime thereafter.
- Funds will take the form of reimbursements to registered apprentice sponsors or employers to supplement the cost of RTI/OJT training expenses.
- Reimbursements will be allowed once the new registered apprentice has remained an apprentice for a minimum of 90 days, and;
 - For RTI funding, the apprentice has received a minimum of twenty-four (24) hours of RTI, or,
 - For OJT funding, the apprentice has received a minimum of 40 hours of OJT.
- OJT funds are intended to off-set some cost of training a new apprentice, not to exceed \$1,000 per apprentice.
- RTI funds are intended to off-set some cost of instructor wages used to provide new apprentices with RTI, not to exceed \$1,000 per apprentice.

Funding will be allocated through a competitive process with review by a committee representing content specialists with regional knowledge. Initial applications will be reviewed beginning June 1, 2022. Subsequent applications will be accepted and reviewed on an ongoing basis, through August 31, 2022, or until funds are depleted, whichever comes first. If selected, the responder may only incur eligible expenditures when the contract is fully executed, and the contract has reached its effective date.

As required by 2014 Minnesota Laws Ch. 239, art. 2 and 9, successful responders may not use money received under the grant contract to supplant other funds available for the same purpose.

Priorities

It is the policy of the state of Minnesota to ensure fairness, precision, equity and consistency in competitive grant awards. This includes implementing diversity and inclusion in grant-making. This grant will serve:

- new registered apprenticeship sponsors; and
- existing registered apprenticeship sponsors seeking to develop new or expand existing training programs.

Competitive priority will be awarded to those programs:

- serving underrepresented communities, which could include Indigenous communities, people of color, people with disabilities, women, veterans, and those who live in Greater Minnesota; and
- ensuring apprentices, a livable and progressive wage, allowing preparation for careers in which they are able to earn a family-sustaining income of at least \$18.20 an hour at the end of the apprenticeship program;
- creating new apprenticeable occupation(s) to an existing registered apprenticeship program.
- creating a new registered apprenticeship program;
- those applicants who have not received grant funding in the past.

Grant outcomes include:

- creation of new registered apprenticeship programs in Minnesota;
- apprenticeship opportunities for Indigenous communities, people of color, people with disabilities, women, veterans, and those who live in Greater Minnesota; and
- innovative approaches to RTI and OJT instruction.

Selection criteria and weight

The review committee will be reviewing each applicant based on a 100-point scale.

The scoring factors and weight that applications will be judged on are based on the:

- organizational ability to administratively and programmatically manage the funding and programs successfully;
- experience running training programs;
- programmatic approach to career development and how it will achieve results;
- program's ability to recruit and provide underserved participants, as noted above, for the training program;
- likelihood the program will achieve anticipated outcomes;
- program's ability to serve people traditionally underserved in the industry in which training will occur;
- innovative approaches to career training program development; and
- demonstrated results with evidence-based outcomes.

MNRAE RTI and OJT funding has the following weighted criteria:

Application evaluation and timeline

All complete proposals will be evaluated by representatives of DLI. Each proposal area will be evaluated separately. The state reserves the right, based on the scores of the proposals, to create a short-listing of responders that have received the highest scores to interview. The state reserves the right to seek best and final proposals from one or more responders. A 100-point scale will be used to create the final evaluation recommendation.

See the cover sheet for timeline dates.

Conflicts of interest

DLI will take steps to prevent individual and organizational conflicts of interest, both in reference to applicants and reviewers, per [Minnesota Statutes § 16B.98](#) and the policy, [Conflict of Interest for State Grant-Making](#).

In cases where a conflict of interest is suspected, disclosed, or discovered, the applicants or grantees will be notified and actions may be pursued, including disqualification from eligibility for the grant award or termination of the grant agreement.

Per [Minn. Stat. § 13.599](#):

- names and addresses of grant applicants will be public data after proposal responses are opened;
