m DUAL-TRAINING PIPELINE

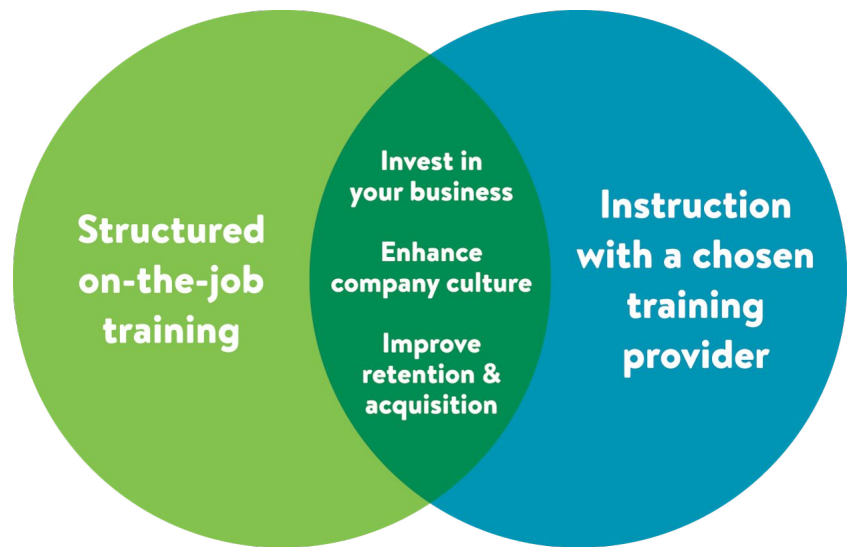

Industry-based, employer-driven, dual-training experience

Because people are at the heart of success, attracting, retaining and evolving a quality workforce is critical for businesses to remain competitive and prosperous. Minnesota Dual-Training Pipeline helps businesses meet their workforce needs by working with you to create your own robust competency-based, dual-training approach.

Minnesota Dual-Training Pipeline works with employers to bring together structured on-the-job training with formal related education to show how much you value your employees and to create a culture that is supportive, productive and satisfying.

Learn more about the Minnesota Dual-Training Pipeline at www.dli.mn.gov/pipeline.

Dual training

Youth Skills Training Program

Our state's workforce needs the skills and talents that will come from the student pipeline we have in our high schools across Minnesota. As such, Minnesota Dual-Training Pipeline is excited to partner with the Youth Skills Training (YST) Program.

YST encourages, promotes and supports the development of local partnerships among schools, employers and community organizations. YST helps employers create safe and meaningful paid work experiences for 16- and 17-year-old students to get them excited about today's in-demand occupations.

Learn more about YST at www.dli.mn.gov/yst.

- Psychiatric/mental health technician out-patient
- Radiologic technologist
- Registered nurse
- Respiratory therapist
- Senior living culinary manager
- Surgical technologist
- Wound, ostomy, continence (WOC) nurse

Success stories

Ann Dempster, human resources administrator, Mankato Clinic

- *“Minnesota Dual-Training Pipeline has been such a great program. We have frontline staff going through the medical assistant program, and once they complete the training as a medical assistant, they get to work in direct patient care which is a very important part of the success of our patients. It improves employee satisfaction and furthers the growth of our clinic.”*

Craig Ryan, vice president of Winegar Inc.

- *“Minnesota Dual-Training Pipeline has allowed us to continue to invest in our employees. There is a lot of pride in our CNC operators in obtaining their NIMS certificates. It allows them to advance from an entry-level operator to an intermediate operator in a short period of time. This means a higher level of efficiency for our business as well as our operators being able to receive higher wages for the quality product they are creating.”*

Get involved

- Work directly with **Minnesota Dual-Training Pipeline consultants** to begin your company's own dual-training program.
- Take part in **Industry Forums and Competency Validation** to advise and create new workforce development initiatives.
- Join us for **enrichment events** including speaker series, success recognition and community conversations to continue changing the culture of workplaces in Minnesota.
