   C. **Code Adoption – Green**
      • Green said he communicated with Tony Lundell, IIAR Director of Standards and Safety, regarding the Ammonia Code and publishing likely won’t occur until Dec. 1, 2020, or later. ASME B31.1 will be published in 2020. Green recommended that the Board wait until the October 2020 meeting to discuss any rulemaking efforts. The rulemaking process is lengthy, and it makes more sense to wait until the Board can consider rulemaking once both codes are available.
      • Bain agreed with waiting on rulemaking and asked Green if he could supply the Board with ASME B31.1 once published. Green said he will order for the Board when available and the Board can then start an informal review process and comparison.
