Work Comp Campus launch delayed as stakeholders prepare

The Department of Labor and Industry (DLI) is committed to the success of its Workers' Compensation Modernization Program (WCMP). In light of challenges facing the external stakeholder community – attorneys, health care providers, insurers, rehabilitation providers and others – DLI has made the decision to delay the launch of its new workers' compensation claims portal, Work Comp Campus, until Nov. 2.
Why delay launch?

• Time requested to work through their business readiness plans

• Technology implications due to COVID and overall transformation due to Campus

• More exposure to the system for key stakeholders

• 60-day delay was included in bill language previously sent to legislature during regular session

• System is built, has been tested and is ready at this time
What to Expect over the next 60 Days
